Birth Certificate Information

Over the last couple of years I have received a number of inquiries from individuals who were born on base - requesting information on how to obtain copies of their birth certificates.

The Spanish Embassy in Madrid has a webpage that provides information on the Consular Report of Birth application:

<http://madrid.usembassy.gov/citizen-services/passports/reports-of-birth.html>

If you need further assistance beyond what is contained on this particular page please contact the Embassy at the following email address: askACS@state.gov
